

Commissioners Corner
By Dick Scott

All of us have a chance to convey our opinion to Governor Hickenlooper regarding economic development in Kiowa County. This can be done thru an 8 question survey that can be done with your computer on the internet. In the address box of your search engine enter-- www.advancecolorado.com/bottomup and then click on 'survey'. Give the answers of your choice by clicking on the little box below each question. When you are done click on submit.

If you are not really into the computer thing , get someone to help you. There are computers at the Kiowa Co, Library and probably a person there to help you. If you have kids or grandkids they can walk you thru this easy.

How much will come from this is unknown but the Governor has said he will try to develop the economic plan for Colorado from the bottom-up. It costs nothing more than a little time to voice your opinion for Kiowa County--it can't do any harm and --who knows what might develop.
